

TriAkar, Business Knowledge

Upload this file into WhatsApp Business > Business tools > Meta Business Agent > Knowledge > Add document.

This file holds **facts only**. How the assistant should speak, what it should ask, and what it must never say goes in the **Instructions** box separately, not here.

Every fact below matches the live website. If something changes on the site, change it here and re-upload, otherwise the assistant will confidently tell a customer something false.

Who we are

TriAkar (त्रिआकार) is a premium Indian 3D printing and design brand, founded in 2024.

We design and manufacture home decor, wall art, personalised gifts, corporate gifting, replacement parts, desk and utility products, and fully custom objects. Every item is printed fresh after the order is placed. Nothing sits on a shelf.

We manufacture our own products. We are not a marketplace and not a reseller.

Tagline: Crafting the Third Dimension. Positioning: Made in India, Designed for the World.

We are also on Amazon and Flipkart, but the custom and personalised options are only available by ordering directly.

Locations

Greater Noida West studio, walk-ins welcome

Shop No. 25, Karan Singh Market, Chhoti Milak, Greater Noida West, Uttar Pradesh 201307. Near Cherry County and Ek Murti Chowk.

Customers can walk in, browse, and see finished pieces in person. Same day pickup is available for customers who live nearby.

Sohna Branch, Gurugram

Flora Avenue 33 by Breez, Sector 33, Dhunela, Sohna, Haryana 122103.

This is a **branch**, not a studio and not a showroom. Never call it a studio. Never invite anyone to come and browse there.

It serves Gurugram, Sohna, Sohna Road, Badshahpur, Bhondsi and Manesar with home delivery. Pickup is possible only after the order is ready and a time has been fixed on WhatsApp beforehand.

If someone wants to walk in and look at pieces, send them to the Greater Noida West studio.

Hours, both locations

Monday to Saturday, 11 AM to 8 PM IST. Closed Sunday.

What we make

- 3D printed home decor
 - Wall art and decorative panels
 - Personalised and custom products, name plates, photo-embossed items, occasion gifts
 - Corporate gifting, branded and bulk, minimum 10 pieces
 - Replacement parts, recreating broken plastic parts
 - Desk accessories and utility products
 - Custom manufacturing, prototypes, scale models, mechanical parts
 - Product prototyping with design included
-

Materials and machines

We have every common material available, and high-end quality FDM machines. We do not discuss machine model numbers.

PLA+ is our standard. It is made from corn starch rather than petroleum. Strong, smooth, premium finish, safe for indoor use, and more eco-friendly than standard plastics.

We also stock **PETG**, **ABS**, **ASA** and **TPU**.

Which material suits what:

Use case	Material
Decor, gifts, name plates, anything indoors	PLA+
Inside a car, kitchen, near heat, near a geyser	ABS or ASA
Outdoors, balcony, direct sunlight	ASA or PETG
Carries weight, gets pulled, machine parts	PETG or ABS
Needs to bend or grip, rubber-like	TPU

Accepted 3D file formats: STL, OBJ, STEP, 3MF, F3D. Customers should send them as a document, not as a photo, because WhatsApp compresses photos.

Customers do not need a 3D file. A reference image is enough, and we do the design.

Honest limits of 3D printing

These are true and should be said before an order, not after.

- **Size affects price more than anything else.** Cost scales roughly with volume, so making a piece slightly smaller drops the price a lot.
 - **Fine layer lines are visible up close.** The finish is smooth and premium, but this is 3D printing, not injection moulding.
 - **PLA+ softens inside a closed car in Indian summer.** Car pieces need ABS or ASA.
 - **PLA+ degrades in direct sunlight over time.** Outdoor pieces need ASA.
 - **Very thin or spiky parts break easily.** They need to be thickened.
 - **Text below roughly 4 to 5 mm letter height does not print legibly.**
 - **A photo does not become a full 3D face or bust.** A photo becomes a flat relief or a lithophane, which looks beautiful. A true 3D model has to be modelled separately.
 - **Overhangs need supports, which can leave a faint mark.** We hide these in the design.
 - **We do not recommend 3D printed items for repeated food contact,** because layer lines can hold bacteria. Decorative and dry use is completely fine.
 - **Single colour is standard.** Multi-colour is possible but costs more and takes longer.
 - **Anything that must fit an existing object needs a measured dimension, not a guess.** This is the single most common cause of a reprint.
-

Prices

All prices are in Indian Rupees.

- General range: ₹149 to ₹5,000 and above
- Replacement parts: from ₹299
- No minimum order. We make single pieces, that is completely normal here
- Corporate and bulk: from 10 pieces, with better pricing

Custom pricing depends on size, material, detail and quantity. Small custom items usually start around ₹300 to ₹500. Larger decor pieces go above ₹2,000. An exact price needs a reference image and a rough size, or the customer's own 3D file.

Prototyping plans, fixed price, design included, all plus 18% GST

Plan	Price	What it covers
Starter	₹2,999	One functional part or open-frame prototype, PLA+, up to 15 cm cube
Enclosed Box	₹4,999	Fully enclosed box built to spec, 2 design revisions, up to 23 cm cube
Multi-Part	₹8,999	Assembled multi-part enclosure with snap fits, screw bosses and vents, 4 revisions, PLA+ or ABS, up to 28 cm cube
Full Development	₹14,999	Complete 4 to 6 part assembly, 5 revisions, multi-colour, dedicated design call

R&D wastage during the design stage is absorbed by TriAkar, not charged to the customer. Details: <https://www.triakar.com/prototyping>

Shipping and delivery

Normal delivery is 3 to 6 business days across India. Business days are Monday to Saturday. Sundays and national or public holidays are not counted, and processing, dispatch and support may pause on those days.

Shipping charges

- Free shipping on orders above ₹999
- Orders below ₹999 attract a ₹99 shipping fee
- Studio pickup at Greater Noida West is free, and same day for customers who live nearby
- Sohna Branch covers Gurugram, Sohna, Sohna Road, Badshahpur, Bhondsi and Manesar with home delivery, and pickup only by prior confirmation once the order is ready

Speed by region

- Delhi NCR is often faster, usually 1 to 3 days
- Everywhere else in India, 3 to 6 business days

Everything ships by tracked courier. Customers can follow their order at <https://www.triakar.com/track-order> using their order ID.

Urgent orders: we can have a piece ready within 24 hours. An urgent charge applies, and the exact amount is confirmed case by case.

Custom orders: a quote comes within 24 hours. Most custom parts are ready in 48 to 72 hours after the customer approves the design, and then shipping time applies on top.

International: we do ship internationally. Rates are confirmed at checkout. Customs duties and import taxes are the customer's responsibility, and customs delays are outside our control.

Delivery estimates are indicative, not guaranteed. We are not responsible for delays caused by couriers, customs, weather or anything else outside our control. If a customer gave us an incorrect address, a free reship does not apply.

How to order

There are three routes, and they all end the same way, with a human confirming the plan before anything is printed.

On WhatsApp. Tell us what you need, send a reference image (or a 3D file if you have one), and share quantity, delivery pincode and the date you need it by. We come back with the exact price, then send our GPay QR. Once payment is done the order is confirmed.

On the website. Browse <https://www.triakar.com/products>, add to cart, and check out through Razorpay. An account is needed, we do not offer guest checkout.

Instant Quote, at <https://www.triakar.com/instant-quote>. Upload your own STL or OBJ, pick material and colour, and get an automated price estimate straight away. No account needed just to see a price.

Important about Instant Quote: **the price shown is an automated estimate and the actual price can vary by 15 to 60 percent.** Payment secures a place in the queue, but production does not begin until the customer confirms the final customisation details with us. Before that confirmation the customer can cancel at no cost.

Customisation is always confirmed by a person before production. For any customisable product we show a digital preview or a written confirmation of specifications, and nothing goes into production until the customer approves it.

Payment

There are two ways to pay, depending on where the order is placed.

On WhatsApp: we send our GPay UPI QR code directly in the chat. The customer scans it and pays.

On the website: checkout goes through Razorpay, which covers UPI, credit cards, debit cards and net banking.

A GST invoice is available either way, the customer just needs to share their GSTIN.

We do not offer Cash on Delivery. The reason is that every piece is made to order specially for that customer. Nothing goes out of existing stock, and once a customer's name or design is printed on a piece it cannot go to anyone else.

We never ask for a card number, CVV, OTP or UPI PIN. Nobody from TriAkar will ever ask for those. Payment is only ever the customer scanning our QR or paying on our website.

The amount is always confirmed before any payment is requested. For custom work the price depends on size, material, detail and quantity, so a QR code goes out only after the exact amount has been agreed with the customer.

The unboxing video, tell every customer this before delivery

This is the single most important thing to say early, not after something goes wrong.

A free reprint for a damaged or incorrect item requires an unboxing video. The video must show:

1. The sealed TriAkar package **before** opening, with the tamper-evident seal fully visible and intact 2. The complete unboxing in **one single uncut recording**, from sealed to fully opened 3. The condition of the item as received

Claims without a valid unboxing video showing the intact seal at the start will not be processed, under any circumstances.

So when an order is confirmed, or when delivery is close, remind the customer kindly:

> Ek chhoti si request, jab parcel khole toh video bana lijiyega. Seal band dikhna chahiye shuru > mein, aur ek hi recording mein poora kholna, beech mein rukna nahi. Kuch gadbad nikli toh usi > video se hum turant free reprint kar dete hain, kuch poochte bhi nahi.

Framing it as protection for the customer works. Framing it as a condition they might fail does not.

Returns and refunds

Standard (non-custom) products, 7-day return window. A return can be requested within 7 days of the delivery date. The item must be unused, in original condition and undamaged. Returns are started by emailing hello@triakar.com.

Return shipping is paid by the customer, unless the item was defective or incorrect, in which case we cover it.

Refunds are processed within 5 to 7 business days of us receiving the returned item, back to the original payment method.

Damaged or incorrect items, 7-Day Free Reprint Guarantee. Share the unboxing video plus clear photographs within 7 days of delivery, and we reprint and reship free.

We do not give cash refunds for damaged items, only a free replacement. Every item is made to order and cannot be resold, so a reprint is what we offer.

Custom orders are non-refundable once approved. Before approving the design or specifications a customer can cancel at no cost. After approval the order enters production and cannot be cancelled or refunded. Instant Quote orders follow the same rule once the final details are confirmed.

Order cancellation. An order cannot be reversed after confirmation. The only exception is when we cannot fulfil it ourselves, for example a stock or pricing error, in which case we cancel and refund in full.

Not eligible for return or refund:

- Items damaged through misuse, modification, or use outside their intended purpose
- Digital files such as CAD or design files, once delivered
- Uploaded 3D model files, which are not deliverables
- Orders where the customer gave an incorrect address, for a free reship
- Delays or damage caused by customs on international orders

Bulk orders of 10 or more units are covered by a separate agreement confirmed in writing before production. Partial refunds may apply if fewer than the agreed units are delivered because of our error.

Exchanges. We do not run a separate exchange scheme. Because every piece is made to order, the equivalent is the 7-Day Free Reprint Guarantee: anything damaged or incorrect is reprinted and reshipped free. A

standard product that a customer simply does not want can be returned within 7 days for a refund, and they can place a fresh order for what they did want.

Other policies

Design approval. We show the customer the design or a specification confirmation before printing. Nothing goes into production until they approve it.

Confidentiality. A customer's design stays theirs. We do not share it or publish it without their permission. A formal NDA can be arranged on request.

Business days. Every timeline here, processing, dispatch, returns and refunds, is counted in business days. Business days are Monday to Saturday. Sundays and national or public holidays are not counted.

Common questions and the correct answers

Where are you located? Our studio is at Shop No. 25, Karan Singh Market, Chhoti Milak, Greater Noida West, UP 201307, near Cherry County and Ek Murti Chowk. Open Monday to Saturday, 11 AM to 8 PM. Walk-ins

welcome.

Are you in Gurugram? Yes, we have our Sohna Branch at Flora Avenue 33 by Breez, Sector 33, Dhunela, Sohna 122103. It covers Gurugram, Sohna Road, Badshahpur, Bhondsi and Manesar with home delivery. It is a branch and not a showroom, so pickup happens only once the order is ready and a time is fixed. To see pieces in person, visit the Greater Noida West studio.

How long does delivery take? Normal delivery is 3 to 6 business days across India. Business days are Monday to Saturday, Sundays and public holidays are not counted. Delhi NCR is often faster, usually 1 to 3 days. Free shipping above ₹999, and a ₹99 shipping fee below that.

Can you do it urgently? Yes, we can have a piece ready within 24 hours. An urgent charge applies and we confirm the exact amount.

Do I need a 3D file? No. Just share a reference image and we take it from there. If you do have a printable file, send it as a document and we will check it and give an exact price.

What material do you use? Which machine? We have every type of material available and high-end quality FDM machines. PLA+ is our standard, made from corn starch. Tell us where the piece will be used and we pick the right material.

Do you have Cash on Delivery? No. Every piece is made to order specially for you, so payment is online. On WhatsApp we send our GPay QR right in the chat, or you can pay on the website through Razorpay. Either way you get a GST invoice. If you live nearby you can also pick up from the studio.

How much will my custom item cost? It depends on size, material, detail and quantity. Share a reference image and rough size, or your 3D file, and we give an exact price.

Can you recreate a broken plastic part? Yes. Send 2 or 3 photos from different angles, and one photo with a ruler or a coin next to it for scale. Parts start from ₹299.

What is the minimum order? There is no minimum. We make single pieces, that is completely normal here. Corporate and bulk start at 10 pieces with better pricing.

Do you do corporate gifting? Yes, from 10 pieces, with custom logos, bulk packaging and personalised items. Share your company name, quantity, deadline and logo file and we put together options.

Can I return an item? Standard products within 7 days of delivery if unused and in original condition, just email hello@triakar.com. Return shipping is on the customer unless the item was defective or incorrect. Refunds take 5 to 7 business days after we receive the item. Custom orders are not refundable once the design is approved.

Something arrived damaged, what now? Send your unboxing video and clear photos within 7 days of delivery and we reprint and reship it free. The unboxing video is required: it has to show the sealed package with the seal intact at the start, and the whole opening in one uncut recording. Without it we cannot process the claim. We replace rather than refund, because every piece is made to order.

Do you do exchanges? We do not run a separate exchange scheme, because every piece is made to order. If something is damaged or incorrect we reprint it free under the 7-Day Reprint Guarantee. If you simply do not want a standard product, return it within 7 days for a refund and place a fresh order.

Can I cancel my order? Not once it is confirmed and paid, because the piece is made only for you.

Will it look like my reference? We show you the design before printing, so there are no surprises.

Is my design confidential? Yes. We do not share or publish it without your permission, and we can arrange an NDA.

Do you give a GST invoice? Yes, just share your GSTIN.

Are you on Amazon and Flipkart? Yes. Ordering directly gets you the custom and personalised options the marketplaces do not carry.

Can I visit? Yes, walk-ins are welcome at the Greater Noida West studio, Monday to Saturday, 11 AM to 8 PM, closed Sunday.
